

WESTVIEW TENNIS CLUB - VISITOR INFORMATION

(2026/2027)

Introduction

Thank you for your interest in using the Westview Tennis Club courts, herewith a few introductory notes, rules and booking procedures.

Westview Tennis Club is a sub-section of the Westview Sports Club, however, operates independently from the Main Club. The courts are fully maintained by the tennis section. The club is a private entity and therefore rights of admission are reserved.

Maintenance and upkeep of tennis courts is an extremely expensive undertaking, the club members therefore expect visitors to treat the courts with the due respect.

No activities other than tennis may be played on the courts. ie, no riding of bicycles, skateboards, playing cricket etc , as these activities damage or mark the court surface.

Visitors agree to use the facilities at their own risk and shall not hold the tennis club, main club or any affiliated member or employee liable for any injury and/or loss of any nature, under any circumstances nor for any reason.

Visitors are to note that all 6 courts are under 24 hour camera surveillance.

Visitors can only book 3 days in advance of play and do not have rights to make recurring bookings. i.e. may only book one court up to 3 days in advance. If you require a second court, another registered visitor will need to make the booking.

Westview Village Residents must follow the same procedure as above for visitors.

Night Tennis & Switching Lights

All 6 courts have lights for evening bookings, lights are charged over and above the court booking fee at R1.20 per minute. You must have bought credits through the booking system in order to switch the lights on.

Lights are switched on from your phone via your court booking. The lights switch will only appear on the app against your booking once your booking has started. The lights will automatically switch off on completion of your booking assuming you have purchased enough credits for the duration of your booking. Note you do not need to schedule or make a request for the lights, if you have credits you can switch them on yourself.

You can switch the lights ***on*** or ***off*** at any stage during your booking when the sunlight gets poor or if you finish playing before your time slot ends. ie you have full control over lights usage during your booking. You are responsible for ensuring you have purchased enough credits for the lights to last for your booking. If your lights credits are running out or have run out, you can purchase more at any time from the app.

(Note that non-LED lights cannot be switched off and immediately on again, so be careful not to accidentally switch them off, it takes about 5 minutes after switching off before they will come on again.)
